

Can I See You

Hootie & The Blowfish

I thought the ghost was starting to fade
It hadn't haunted me in days
Just when the sun was coming through
Coincidence out of the blue
I see you
With a smile
You knock me knees
You don't mean to me
But you still got that hold on me
When I see you
It happens when I'm all alone
Sometimes your presence is so strong
I try to sleep
Turn out the lights
Say my prayers and close my eyes
And I see you
With a smile
You knock me to my knees
You don't mean to
But you've still got that hold on me
When I see you

Anytime of day
Anywhere I go
Any song on the radio
I hear your voice
I feel your touch
In the strangest places you show up
Can I see you

With a smile
You knock me to my knees
You don't mean to
But you've still got that hold on me, yeah
Can I see you
Can I see you
Can I see you
