

Silly Little Pop Song

Hootie & The Blowfish

One thing's for sure
I just can't find the way
To let it seem like all is wrong
Inside my den

Hold back
Breathe easy
She said to me
Go somewhere and change your mind
Just let me sleep

I've been living in a lesson
Please just come inside and listen

Is it anger at life
Or are you happy to be with me
Are you seeing someone

Or will your faith
Go with no other man
Come on
Let me dream

I've been living in a lesson
Please just come inside and listen
No need to worry 'bout all the lying
Please just come inside

It's a thing
To make me want to go
See another
That makes me doubt

I've been living in a lesson
Please just come inside and listen
No need to worry about all the lyin'
All the changing
Please just come inside
