When I'm Lonely

Hootie & The Blowfish

Eyes like an infant Staring me down She'll take anything that's tied up In my glorious past

It's just 4 days 'til Sunday
When I say that I'm gone
Little one screams you cry
Tell the pain to leave me alone

It's just 2 days 'til Monday Another week 'til the 4th Is anyone listening or Should I call on the Lord

Sometimes I breathe
Sometimes I see
Then I dream a dream that won't come true
And I struggle with lies when I'm lonely

Someone called my name out loud about 4 a.m.

It wasn't you so I let her in

Just to see what she wanted

She left screaming because I called her by your name

But the next day she came to call

And we finished our game

Alright now

Some days I breathe

Some days I see

Then I dream a dream that won't come true

And I struggle with time when I'm lonely

Shep plays piano down in
Shandon on the other side of Rosewood
You said he wasn't your type
But you went anyway
You left screamin' cause you thought you would
Call him by my name
Ah and you whisper
Why do I do this
I can't go through this why do I do this, why

Sometimes I breathe
Sometimes I see
Then I dream a dream that won't come true
And I struggle with life when I'm lonely
