

Copper (CU)

Hooverphonic

You oxydate slowly
You change every time
Our chemical formula
Doesn't seem right

You polish things slowly
But after a while
Shiny's too shiny
And bright is too bright

You're copper baby

Yuu'll turn into green
If I don't take care
The glow will disappear

You're a bittersweet taste
In the back of my mouth
A viscious reaction
That's burning my mind
