

Fear is talking  
In my head consulting  
But my innervoice it says  
That I'm falling, I'm falling  
Could you be the pillow  
That solves this problem

Sometimes I want to  
Close my eyes and trust you  
But my innervoice it says  
That I'm falling, I'm falling  
Could you be the rock  
That solves this problem
