

Longing for winter
Longing for cold
Bikeride through the snow
Blinded by darkness
Summer flows to the cemetery slow

Pink versus black
Black versus magenta
This picture of you
Just melts in my agenda
While seasons change you know
Yes, the season change you know
With the flow

Days just shorten
Days just glow
This fire keeps us warm
While this storm will uncover
Our secret place called
The cemetery dawn

Pink versus black
Black versus magenta
This picture of you
Just melts in my agenda
While seasons change you know
Yes, season change you know
(Look left)
With the flow
(Look down)
(Look up)
(Look right)
(You're camouflaged by a wall of blue)
(And turn the world magenta...)
