

# One Two Three

Hooverphonic

I got my mind set  
I got my mind set on you  
You make me wonder  
How you do the thing she can't do, yeah

I got my eyes locked  
I got my eyes locked on you  
You make me easy  
You make me dream the home day through

Yeah,  
To be you're perfect  
You are perfect to me  
Before we know we're gone one two three  
I got my mind set  
I got my mind set on you, yeah  
All the things you  
All the things you could do

Why don't you move slow  
Why don't you move closer to me  
Is it a problem?  
If I would come closer to you

To be you're perfect  
You are perfect to me  
Before we know we're gone one two three  
I got my mind set  
I got my mind set on you, yeah  
All the things you  
All the things we could do, yeah

Why can't I get you out of my mind  
Oh, I long to be with you

I got my mind set  
I got my mind set on you, yeah  
All the things you  
All the things we could do, yeah yeah

I got my mind set, mind set  
I got my mind set on you, yeah  
All the things you, things you  
All the things we could do
