

## Plus Profond

Hooverphonic

It enters your veins  
It enters your soul  
It tries to obsess you  
It looks for defaults  
Try not to lose not to lose control  
Try not to lose not to lose control

It tries to destroy you  
It tries to tear you down  
Am I lost lost in your backyard  
Feel the pain  
Yellow takes over  
Yellow takes over  
Yellow takes over

Try not to lose, not to lose control (4x)

C'était toujours la même chose tu sais  
J'étais dans une capsule  
Et après quelques semaines
