

# The Red The White The Black The Blue

## Hope of the States

Mouths of dust and ruptured windpipe  
Fairytale for lying cheats  
They're lashing out like wolves in barbed wire  
Ring the bells and start the fires now

The red, white and the blue  
Has always been what led you  
If you don't disappear  
They'll steal it all from under you

Board decisions, poor children  
Watch the world through gunsight eyes  
I hijack trainwrecks, sell the wheels  
No way out unless you steal it all

The red, white and the blue  
Has always been what led you  
If you don't disappear  
They'll steal it all from under you  
You beat us black and blue  
We're coming back to find you

The red, white and the blue  
Has always been what led you  
If you don't do something  
They'll steal it all from under you
