

Cold

Hope Partlow

I can still remember
When we were first together
Every time you held my hand
It felt just like forever

It feels like it's not the same
Is it me or has the weather changed?
Say what you got to say
Something's going wrong

It's getting cold in here, baby
And I don't know what's going on
But I feel the love is gone

It's getting cold in here, baby
And I don't know what went wrong
But I think you're letting go

Used to be into me
Now you're like, whatever
All my friends can't believe
That we're still together

It feels like something strange
Is it you or has the weather changed
Say what you got to say
I'm not here to place the blame

It's getting cold in here, baby
And I don't know what's going on
But I feel the love is gone

It's getting cold in here, baby
And I don't know what went wrong
But I think you're letting go
But I think you're letting go

Colder than it used to be
And everything is a little bit hard
Frozen just like you and me

It's getting cold in here, baby
And I don't know what's going on
But I feel our love is gone
You should know, you should know

It's getting cold in here, baby
And I feel a chill coming on
And I think your love is gone

It's getting cold in here, baby
And I don't know what went wrong
But I think you're letting go

(It's getting cold in here, baby)
Yeah, I think you're letting go
(It's getting cold in here, baby)

How could you be so cold
(It's getting cold in here, baby)
I don't know what went wrong
But I think you're letting go
