I can still remember When we were first together Every time you held my hand It felt just like forever

It feels like it's not the same
Is it me or has the weather changed?
Say what you got to say
Something's going wrong

It's getting cold in here, baby And I don't know what's going on But I feel the love is gone

It's getting cold in here, baby And I don't know what went wrong But I think you're letting go

Used to be into me Now you're like, whatever All my friends can't believe That we're still together

It feels like something strange
Is it you or has the weather changed
Say what you got to say
I'm not here to place the blame

It's getting cold in here, baby And I don't know what's going on But I feel the love is gone

It's getting cold in here, baby And I don't know what went wrong But I think you're letting go But I think you're letting go

Colder than it used to be And everything is a little bit hard Frozen just like you and me

It's getting cold in here, baby And I don't know what's going on But I feel our love is gone You should know, you should know

It's getting cold in here, baby
And I feel a chill coming on
And I think your love is gone

It's getting cold in here, baby And I don't know what went wrong But I think you're letting go

(It's getting cold in here, baby)
Yeah, I think you're letting go
(It's getting cold in here, baby)

How could you be so cold
(It's getting cold in here, baby)
I don't know what went wrong
But I think you're letting go
