It's Too Late

Hope Partlow

I know my heart was cold But take back all the things I told you I trade my soul away for just another day To hold you

But you're not coming back The dirt's already past The sky has turned to black again

It's too late to regret 'Cause you've already left It's too late to hold on 'Cause you're already gone I don't know how I will carry on

I feel your body near I close my eyes and hear you call me I swear your voice is real I reach my hand to feel you draw me

When I look around You're nowhere to be found You've left without a sound again

It's too late to regret 'Cause you've already left It's too late to hold on 'Cause you're already gone I don't know how I will carry on I don't know how I will carry on

It's too late to regret 'Cause you've already left It's too late to hold on 'Cause you're already gone I don't know how I will carry on

It's too late to regret 'Cause you've already left It's too late to hold on 'Cause you're already gone I don't know how I will carry on I don't know but I will carry on
