

Unleash Hell

Hopes Die Last

I am fate
I am hate

What's going on?
in here
is this happening for real?

this is the truth
I know it's not good
but yeah
it's happening for real

Like I said
the way out
is the way through
so don't be scared
just take a breath
and hope for two
Like I said
the way out
is the way through
don't lose your head
I promise we get back to life

I can't see no reason why
I am here tonight
I thought my life was better
I can't see no reason why
this is the end of time
it's hard to realize

take my hand
I will try to escape
until the end
till they say it's time to die
so take my hand
I will try to find a way
cause I can't stand
on my knees praying their god

let's get the fuck out
the way out
is the way through

take my hand
I will try to escape
until the end
till they say it's time to die

I won't regret a thing in life
when everything's over we are fine
I won't regret a thing in life
when everything's over
everything's over
