(oooooooooooohhhhhh)

In this shiver of symphony
the closing shadows turn like a still
a thousand feet across the floor
and in a second I'll never grow old
quiet now quiet now
crying I won't stop
the quivers running down my mind
ha-ah-ah-ah-oh-oh-oh!
close enough
close enough
and I'm feeling tired
(kiss kiss kill kill)
(kiss kiss kill kill)

Kiss kiss we dantly kill kill me quietly chill chill chill me instantly one kill one chill just one kiss

In this scaring demised time cries and grabs for reality having co touch comforts me as a greeting in dead and despair sinking down sinking down slipping my conscious knows hasn't into the pride

close and I'm close and I'm feeling tired
(kiss kiss kill kill)
(kiss kiss kill kill)

Kiss kiss we dantly kill kill me quietly chill chill chill me instantly one kill one chill just one kiss

Kiss kiss me dantly kill kill me quietly chill chill chill me instantly one kill one chill just one kiss

Kiss kiss kill kill kiss kiss kill kill kiss kiss kill kill kiss kiss
