

## Face Down

## Hot Action Cop

Sometimes  
I think that all i need  
Is a hammer  
To get you off my mind  
I don't get it, i don't get it.  
I just can't relax  
Like a target  
Is coming under attack

I stay up all night  
And sleep through the afternoon  
Face down face down (face down)  
Losing myself in you  
It hurts so good just kill me please  
You're the sweetest misery

Sometimes  
I think that all i need is a wrench  
To open up my eyes  
I don't get it, i can't help it  
Can't help myself  
God help me  
Something is gone inside

I stay up all night  
And sleep through the afternoon.  
Face down face down (face down)  
Losing myself in you  
It hurts so good just kill me please  
You're the sweetest misery

Everything got think on hell  
You know i love you more  
And i hate myself  
Everything gotta think on hell  
You know i love you more  
And i hate myself  
Well i'm taking my cinder block window shopping  
Gotta get this pressure dropping  
You keep dragging me through a tar  
Pit up to my eyeballs in the carpet.  
Lunatic rhetoric said it's a no go  
The ballerina ain't here to pogo  
Lying in a state of shock  
I'm yours you are not  
Here's my heart  
You can decide

I stay up all night  
And sleep through the afternoon.  
Face down face down (face down)  
Losing myself in you

I stay up all night  
And sleep through the afternoon.  
Face down face down (face down)  
Losing myself in you

It hurts so good just kill me please  
You're the sweetest misery

Well, it hurts so good just kill me please  
You're the sweetest misery
