

She wrote her name on my wrist
Her number right up my arm
She caught up in a twist
And put me down like a bomb
What up with all these noises
I hear from other guys
She'll take you to the end
Till they leave you there for dead

Jen, Jen, then Jen again
Again Jen
Jen, Jen, then Jen again
Again Jen

Her voice is up in my head
Starting to pop out my mouth
Whenever I tell her I care
I'm sick of the way that I sound
She'll get you where that void is
And push you from behind
She'll say we're only friends
Until they do you in the shed

Jen, Jen, then Jen again
Again Jen, yeah
Jen, Jen, then Jen again
Again Jen

Jen, when I tell you the way I feel inside
Jen, I was never so broken or alive
I'm trying to pretend (Jen)
This is not the end
I'd do it all again
You totally fucked me in the head

Jen, Jen, then Jen again
Again Jen, yeah
Jen, Jen, then Jen again
Again Jen
Jen, Jen, then Jen again
Again Jen, yeah
Jen, Jen, then Jen again
Again Jen

Woah, alright
Again Jen
Woah, alright
Again Jen
Woah, alright
Again Jen
Woah, alright
Again Jen
