

# Alright

Hot Chelle Rae

I took a drive in the middle of the night  
The first time I've done that without you  
By my side  
And our song was playing on the radio  
It seems to follow me everywhere I go  
Where I go  
So would you

Come back in the middle of the night  
And tell me everything is gonna be alright  
It's alright, It's alright  
Without  
You here everything is gray  
The color faded when you packed your bags  
And you drove away  
It's hard to act like everything's the same  
The closest I can get to you is in this frame  
I wanna hear you say  
That you will  
Come back in the middle of the night  
And tell me everything is gonna be alright

It's alright, It's alright  
We're face to face while the stars are burning bright  
And tell me everything is gonna be alright  
It's alright, It's alright  
It's alright, It's alright, It's alright  
In the dark you come to life  
The memories of you and I  
I want to keep you here with me  
Don't wake me up just let me dream  
Come back in the middle of the night  
And tell me everything is gonna be alright  
It's alright, It's alright  
We're face to face while the stars are burning bright  
And tell me everything is gonna be alright  
It's alright, It's alright  
It's alright, It's alright  
It'll never be alright without you
