

Bushes

Hot Chelle Rae

I'm incognito
like a shadow that moves through the night
you sit by your window and wait
And I can see you as the moon hits your eyes
It's my guide
Shinning to show me the way
Shinning to show me the way

You got me walking through the bushes baby
Your body's like a charm
Oh Ooh
Your silhouette that gets me
Yeah this darkness turns me on.
Oh oh oh oh oh oh
Kiss Me, Kill Me,
Nobodys gunna see you touch me feel me
You got me walking through the bushes baby
Sneak out the back
I'll have you back,
Before he knows your gone

I feel the freedom as we just left the bright city lights
The skys filled with stars From the rain
For the moment when you see your dreams come alive
I know that well never be safe
As the sun comes to take you away

Before he knows your gone
Before he knows your gone
Before he knows, he knows, he knows
