

# Heart Hurts

Hot Chelle Rae

I can see it in your face there's someone else  
You came looking for shelter, a place to blame yourself  
Your guard is up, take it down slowly  
Kill the pain baby put it on me  
How could anyone leave you for someone else

I know your heart hurts  
I'm with you for what it's worth  
Love burns, ice cold  
The proof inside you forgets control  
Heavy eyes, don't lie  
You're the blue and I'm your sky

I know your heart hurts  
I'm with you for what it's worth

Your hands start to shake when you say his name  
You were in it for love but he can't feel that way  
I know I can fix you if you let me  
He broke your heart and that gets me  
How could anyone leave you for someone else

I know your heart hurts  
I'm with you for what it's worth  
Love burns, ice cold  
The proof inside you forgets control  
Heavy eyes don't lie  
You're the blue and I'm your sky

I know your heart hurts.  
Well, I'm with you for what it's worth

Drink and dance  
Take this chance  
No plans, ready get set free  
Be with me tonight and I will make everything all right

I know your heart hurts  
Well, I'm with you for what it's worth  
Love burns, ice cold  
The hurt inside you forgets control  
Heavy eyes, don't lie  
You're the blue and I'm your sky

I know your heart hurts  
I'm with you for what it's worth
