

# Colours

Hot Chip

Colours are what  
Keep me alive  
Colours are what  
To hold in my head

Colours are where my  
My old meets new  
Colours are where my  
My brain finds blue

Colours and colours and colours of colours  
Colours and colours and colours of colours  
Colours and colours and colours of colours  
Colours and colours and colours of colours  
Colours and colours and colours of colours

Bursts are where  
I find a face  
Bursts are made  
To colour me rich  
Bursts are blocks  
Stickle bricks  
Bursts of colour  
Until I'm sick

Colours and colours and colours of colours  
(i only wanted for to see)  
Colours and colours and colours of colours  
(there's nothing in this heart but me)  
Colours and colours and colours of colours  
(everything you want is not free)  
Colours and colours and colours of colours

Colours and colours and colours of colours  
(i'm everything a girl could need)  
Colours and colours and colours of colours  
(there's nothing in this heart but me)  
Colours and colours and colours of colours  
(if everything you want is free)
