Don't Deny Your Heart

Well you thought you could not go on Your bones are just beating like drums at your funeral song And your heart has been gone too long It's pushing for a drug that will beat it from wrong to wrong

Don't you know that it's hard? Said it's hard for love When you feel this but But I tried my best to cloak it, in a bind, I'm getting stronger Will these words take this somewhere else Somewhere we don't hurt In my heart we're getting stronger and I know where we belong in

All I wanted was you It's our last time to choose How are we gonna lie or second guess When we cover our eyes and we open our scars Are we ready to lay this all to rest

(2x)
Don't deny your heart
Don't destroy your heart (say y-y-yes)

You'll see We take fun seriously Remember to breathe My girl you're getting stronger Eyes are bright and full of wonder Tonight If you want to step, I'll step with you Walk ahead, walk through You'll be grown too soon You'll be grown too soon

What are we gonna do Now there's nothing to lose How are we gonna move together Time you're breathing with me Now our bodies agree Lose your shackles we must remember

(2x) Don't deny your heart Don't destroy your heart (say y-y-yes)

(2x) Everything rises up Until we are underground Walk on me quietly Until I can't hear a sound

Hot Chip
