Hittin' Skittles

Oh oh ohohoh I'd really like to have it But you know that we shouldn't order Not that I'm a moral man But you know what I I am If I met you on the corner Where I was once a man Still I couldn't put it to you But fear that you would understand If we wern't ?? Know that that's my favorit track I live inside dirty water I trust that you would take my hand I know that ?? And you've got nothing on back Bad ways of tilted talking Still the best you've ever had There has been no dirty moment But I feel the need for bathing I am going to keep my clothes off Are you gonna call me baby I'd really like to have it But you know what we shouldn't order Not that I'm a moral man But you know what I I am If I met you on the corner Where I was once a man Still I couldn't put it to you But fear that you would understand There has been no dirty moment But I feel the need for bathing I am going to keep my clothes off Are you gonna call me baby
