

Over and Over

Hot Chip

Laid back
Laid back
Laid back, we'll give you laid back
Laid back
Laid back
Laid back, I'll give you laid back

Over and over and over and over and over
Like a monkey with a miniature cymbal
The joy of repetition really is in you
Under and under and under and under and under
The smell of repetition really is on you
And when I feel this way I really am with you

Laid back
Laid back
Laid back, I'll give you laid back

Over and over and over and over and over
Like a monkey with a miniature cymbal
The joy of repetition really is in you
Under and under and under and under and under
The smell of repetition really is on you
And when you look this way I really am with you

Started thinking about what I to have to do (tell you)
I got to thinking that I mean just what you do (tell you)
Started thinking about what I to have to do (tell you, tell you
, tell you, tell you)
