

## So Glad to See You

Hot Chip

Like all birds together we will squawk and we squeak  
The joy comes from all our beaks  
And ringing bells is our fun  
Now our ass is moving as one..  
If we are forgetting all the rules that we learnt  
When all the rule books are burnt  
And just like a follows b...  
Our chorus will always be...  
So glad to see that you came...  
..we hope you come again etc.

I have but one true friend  
She sings to me  
In my solitude  
And I know her name  
I tried to know her..  
In all her changes  
But I don't know her...
