## **Take Care**

And I don't deal in books I don't deal in looks And don't ask for my recommendations And I don't know about Babies being born And hits being hot Baby, what you got?

Take care into the home Take care Take care

It's never bang, bang, bang It's run, run, run And I'm only on my way Don't tell me where I'm at My heart is broke, broke, broke And it's not for the cause of a lady My eyes are choked, choked, choked And it's no good looking at you

Take care into the home Take care Take care into the home Take care Take care **Hot Chip**
