

## Good Day to Die

Hot Hot Heat

I woke up wrong this morning  
No reason why  
Los Angeles is pouring and I'm like any guy  
Sophisticated ladies I've never known  
So many little babies stuck without a home

It's a good day to die so come knock me over  
Say goodbye  
It's a good day to die

I get a hold of something  
Can't let it go  
And if it leads to nothing  
Well, at least I know  
The weatherman he told me it's getting cold  
Now it's the same old story  
Pockets filled with gold

It's a good day to die so come knock me over  
Say goodbye  
I'll be on my way  
It's a tumble and tide pulling me under  
So turn out the lights  
It's a good day to...

I get a hold of something  
Can't let it go  
And if it leads to nothing  
Well, at least I know  
Well, at least I know

It's a good day to die so come knock me over  
Say goodbye  
I'll be on my way  
It's a tumble and tide pulling me under  
So turn out the lights  
It's a good day to...
