

## Implosionatic

Hot Hot Heat

I think it's time you take another look around  
if you're gonna bring a knife into a gunfight bragging  
how you're sick of hearing every single human being  
seeing as they're watching but can't see past what they're seeing  
You can keep em at bay but put that knife away  
Always with the wild card you're gonna wanna play  
cuz you're my implosionatic  
My implosion addict  
That a boy  
Don't rock the boat  
That a boy  
Let it implode  
I think it's time you take another couple days off  
Gotta make a conversation such a face off  
I'm betting debt is threatening to make it worse  
Try to hide you're dreaming up an epitaphic verse  
You can keep em at bay but put your pills away  
Always with the wild card you always wanna play  
So much for dying before you're 30 or 27 like Jan and Jim  
Get on it  
Where's your iconic all too ironic romantic tragedy recorded quadraphonic?
