

## This Town

Hot Hot Heat

Gonna walk right through this town  
and laugh with a crowd of strangers chasing me.  
Never stop to look behind my back,  
so tell me what they said  
because I fear my life's in danger now in this town.  
How did you get to my motel -do tell soon.  
Gonna walk right through this town again  
with a crowd of strangers watching me,  
picking every little thing apart.  
So, tell me what they said  
because I get attitude from this town -in this town.  
How did you get to this town?  
...Through this town?  
Gonna walk right through this town again  
knowing that I'm only here tonight.  
Never cared to stop and say hello;  
so, tell me what they said  
because I don't have time to hang around in this town.  
Maybe... maybe I should think to stay.  
Maybe I won't ever return.  
Maybe... maybe I should stop and play.  
Gonna walk right through this town again.  
But, all I know is I really should be on my way.  
Wouldn't mind one more night in town.
