

## Cool With Me

### Hot Rod Circuit

All the aggravation you say  
I never listen to the words you say to me  
Maybe it's my attention span all these things are happening  
I didn't mean to ignore you whatever that you're saying  
Whatever is on your mind I know you came to show me but you know that it's not the time  
If it's cool with you it's cool with me
