

## Moonlight - Sunlight

Hot Rod Circuit

Like the sunlight you shine  
when your body's against mine  
like the moonlight you ache  
like the blood in my veins

You make me feel like I'm stoned  
never have I felt so shallow  
felt so alone in my head  
(please take me back where the feeling's not dead)

In the moonlight you fade  
in the dawn of a new day  
at the sunlight I blaze  
want to feel like this every day
