

Radiation Suit

Hot Rod Circuit

Wish I could save you from yourself
Maybe this time
Repair the fracture-didn't heal so well
But it's alright

And I know you got the scars to prove
But what should I do for a radiation spill
Put your suit on
Never expect the fall down to break through

And I often regret the absence to catch you
Wish I could save you from myself
Maybe this time
And I've got the cuts-didn't heal so well

But they're all right
And I know you've got the scars to prove
But what should I do for a radiation spill
Got my suit on

Never expect the fall down to break through
And often regret the absence to catch you
Never expect the fall down to break through
And I often regret the absence to catch you

'Cause I know you've got the scars to prove
Oh what should I do
And I hope somehow
I can give you everything

Just don't ever expect the fall down to break through
And I often regret the absence to get you
And never expect the fall down to break through
And I often regret the absence to catch you
