

Radio Song

Hot Rod Circuit

I got my ways
I've got my reasons
I could sit for days and count the reasons why I like to sit around
And get high and waste my life away
Looks like another nervous breakdown
I could suck it in and turn another bottle down
Up late for the second time straight this week today
Listen to the radio with my friends
Sitting on the left side
Listen to the radio with my friends
Sitting on the right side
Waking up staring at the ceiling as I cling to you
Can't fight this feeling
Up late for the second time straight this week today.
