Radio Song

Hot Rod Circuit

I got my ways I've got my reasons I could sit for days and count the reasons why I like to sit ar ound And get high and waste my life away Looks like another nervous breakdown I could suck it in and turn another bottle down Up late for the second time straight this week today Listen to the radio with my friends Sitting on the left side Listen to the radio with my friends Sitting on the right side Waking up staring at the ceiling as I cling to you Can't fight this feeling Up late for the second time straight this week today.
