

Light Up The Stars

Hot Snakes

A thousand words in every language
Light up the stars for you
The size of the universe
Alright!
I'm never coming back
Back to earth
I didn't notice
I didn't get it
Not one to watch from the outside
I'm never coming back

Is this the kind of love
That can never happen
Turn on the water works right now
I ain't laughing
You got a problem
I'm unfit to solve
I'm never coming back

I'm new
I'm novice
And I'm not privy
And it's not pretty
But it's not unfair
It's so unfair
I know that a mouthful of spit and germs
Is all I got to share with you
But I need your loved
