Light Up The Stars

A thousand words in every language Light up the stars for you The size of the universe Alright! I'm never coming back Back to earth I didn't notice I didn't get it Not one to watch from the outside I'm never coming back

Is this the kind of love That can never happen Turn on the water works right now I ain't laughing You got a problem I'm unfit to solve I'm never coming back

I'm new
I'm novice
And I'm not privy
And it's not pretty
But it's not unfair
It's so unfair
I know that a mouthful of spit and germs
Is all I got to share with you
But I need your loved

Hot Snakes
