

Come Back Baby

Hot Tuna

Come back, baby, baby please don't go
Well I love you, I want the world to know
Come back baby, let's talk it over one more time

This world was made one day
Come back baby, now don't go away
Come back baby, let's talk it over one more time

This whole world was made in sin
Come back baby try it over again
Come back baby, let's talk it over one more time

Come back, baby, baby please don't go
Well I love you, I want the world to know
Come back baby, let's talk it over one more time
