Hot Water Music

I never wondered
I never bothered
I never cared what I wanted to be about
I have more truth than lies to me

Show me, show me
And help me fight it
I can't see to break this
The bottle, it rests in my hand
Show me, show me
And help me fight it
Who's gonna learn to break this?
Who'll start the riots?
Who's gonna break it down?

I never wondered
I never bothered
I take the day I'm severed and build what can be built on it
I have more truth than lies to me

I never wondered (always wondered)
I never bothered (how we fell this way)
I never cared what I wanted to be about
I have more truth than lies to me

Show me, show me
And help me fight it
I can't see to break this
The bottle, it rests in my hand
Show me, show me
And help me fight it
Who's gonna learn to break this?
Who'll start the riots?
Who's gonna break it down?

And this makes me whole - (and this makes me whole)

Charge the body!

I never wondered
I never bothered
I never cared what I wanted to be about
I have more truth than lies to me

Never wondered (always wondered)
Never bothered (how we fell this way)
I never cared what I wanted to be about
I have more truth than lies to me

Show me, show me
And won't you help me fight it
I can't see to break this
The bottle, it rests in my hand
Show me, show me
And then help me fight it
Who's gonna learn to break this?
Who'll start the riots?

Who's gonna break it down?

I'll break it down
