Hot Water Music

Been dragging for so long
(do i care)
Trying to find my way
(is this fair)
Full of mistakes i'll make again
(should i wait)
Got my head up my ass find it there day after day
Never know what i'm heading for
(see it through)
They have too many questions
And i don't have any answers
I just got a headache another drunk
I got the beat down babe
I got the sickness
I got it all but i got it floored:loyalty
