

Eating The Filler

Hot Water Music

How could i fill myself with nothing
Got a drink from the tap
Makes my insides burn with nothing
Scrape the bottom of the can
I was hoping but it's not enough
Staring at the walls and breathing in
I wish that i could live on air and music
I never thought that i could starve in my own home
I need fuel
How could i eat all of what i don't have cause i need rest
Nothing here but i look again
I gotta get out of this cause i can't stand this empty house
It's all right it's all we got it's all right
