

# Keep It Together

Hot Water Music

Keep it together now  
As you wish as you know how  
It'll all work out  
When nothing ever seems to be  
Exactly what you need now  
How fast now, to drench yourself and last

All that you know  
Is all that you've figured out  
But you'll never land again  
Until you stop falling down

Don't let yourself wither now  
Perpendicular to the ground  
It'll all work out  
And don't ever doubt the days  
As if they're not apt to change now  
It'll all come around  
So brace yourself and last.

All that you know  
Is all that you've figured out  
But you'll never land again  
Until you stop falling down

All that you know  
Is all that you've figured out  
But you'll never land again  
Until you stop falling down

So alive, even cut down to size  
We're here to recognize our place in time.  
The roll we play, the days we make  
And the ones made without us around  
We all must carry on  
When we can't carry on with what we want now

All that you know  
Is all that you've figured out  
But you'll never land again  
Until you stop falling down

All that you know  
Is all that you've figured out  
But you'll never land again  
Until you stop falling down

All that you know  
Is all that you've figured out  
But you'll never land again  
Until you stop falling down
