

## No division

### Hot Water Music

We've been locked up and run right down been pushed aside for s  
peaking out against ways of division set to hold us down to put  
us back in line when we step out but i'm not living under them  
when we could when we could rise above a culture that says we  
are better than worse than anyone that's not like us we'll sing  
our hearts in unity that we won't obey or follow hate we stand  
together we stand with no division and the ways of old will be  
swept away
