## Seein' Diamonds

## **Hot Water Music**

I remember seein' diamonds What ever happened to them? You smashed them all when you flew away You just fought everyday Later console talkin' bitter You never believe it's the same Little War?

But it is the same Ohh try and rearrange But it is the same Don't try and rearrange

I remember early morning In the car on the side of the road You said you had something to say I crawled out with my head spinning I covered my ears to late Everything fell down on me

But I must say Ohh try and rearrange Ohh I must say Don't try and rearrange

Just returning Felt like mourning But I couldn't stay away I was holding back from you Just returning Felt like mouring But I couldn't stay away I was holding back from you

But I must say Ohh try and rearrange But I must say Don't change
