

An Emotional Time

Hothouse Flowers

It came in a dream you and I were there
You found me while I was frightened
You said change should not be difficult
You said change should lead us home
To an emotional time
Songs from the rain
Falling on our faces
And lifting the pain
To see us home

Is there a voice
To soothe the storm
I'm still learning
And you're still there

Forever beautiful

There to lead us home to an emotional time
Songs from the rain
Falling on our faces
And healing the pain
An emotional time
Songs from the rain
Calling on listeners to listen again

To see us home

An emotional time
Songs from the rain
Falling on our faces
And healing the pain
It's an emotional time
Songs from the rain
Calling on listeners
To listen again
To see us home
