

At Last

Hothouse Flowers

Wrote your number on the back of his hand
He made a promise you made the plan
He was happy told all of his friends
He had found someone to release him again
At last
At last

Talk to him baby, tell him what now
Are you glad he made it without breaking down
Well he broke down sometimes
Should have seen him cry
Out into the wind
Out into the night
At last
At last

Boy is far from giving up
His time spent here has not yet passed
He's found that love has led to work
And that's been carrying him so fast

Well the stars have brought him
To a new place now
His heart has landed on the open ground
Well he makes his way now
Back into his world
To the light of his eye and his darling girl
At last
At last

This boy is far from giving up
His time spent here is has not yet passed
He's found that love has led to work
And that's been carrying him so fast
This boy is far from giving up
His time spent here is not yet passed
And now his love begins to work (wonders)
And he's been driving it so fast
At last
At last
