

## Born

## Hothouse Flowers

Is it a garden waiting to grow  
Is it a secret that nobody knows  
Is it a poison or is it a cure  
Contaminated when you think that it's pure

Born  
Live on the air  
At a TV station  
With the whole world there  
Born  
Holding your hand  
Spinning the big wheel with a studio band

Will you be true or will you be false  
Is it an omen or is it a curse  
Will you be early or will you be late  
Is it a dead end or is there a gate

Born  
Live on the air  
At a TV station  
With the whole world there  
Born  
Holding your hand  
Spinning the big wheel with a studio band

Will you be here or some place else  
Will you be tired or will I have to dance  
Will you be sexy will you lie on the floor  
Or will you forget completely what I came here for

Born  
Live on the air  
At a TV station  
With the whole world there  
Born  
Holding your hand  
Spinning the big wheel with a studio band

Have you been drinking or is it your scent  
There's so many bottles is your money all spent  
Is there a corner to put all this mess  
You'd think you were lazy, please undress
