

# Good For You

Hothouse Flowers

I've spent my life watching sky and sea change colour  
hypnotised by  
The beauty of it all  
And you ask me why I'm singing

Well it is good for me, it can be good for you

I've hoarded all experiences I've had  
Written down all memories on a train  
And you ask me where I'm headed

It can be good for you  
And it's been good for me

I've seen a face in a thousand nights of dreaming  
It's been calling me to take up on the road  
And I'll go I will I'll keep on believing

'Cos it is good for me  
It can be good for you

I've begged my family to take me  
Asked them to see my point of view  
And I will, I will stand my ground and face you

'Cos you are good for me  
I can be good for you

I've seen a thousand nights of ardour  
Got frozen by the winter of my soul  
But I'm not afraid of sorrow

'Cos it's been good for me  
It can be good for you

And I've woken to the sound of sweet dawn music  
Where a hundred thousand songs are sung  
While the earth and ocean changes  
Four thousand million into one
