

If You Go

Hothouse Flowers

If you go I hope you get there
If you get there I hope you like it

Cos the night might seem like maidens
Sweet maidens sent to tempt you

And the dark might seem like lovers
Sweet lovers sent to kiss you

Oh if you go I hope you get there
If you get there I hope you like it

Yea yea and I
I can see your eyes shining but your head won't move
Oh yeah I
I can see your eyes shining but your head, your head won't move

You can't leave now brother
Don't leave now brother
Cos we love you

You can't go no
You can't leave now brother
Don't leave now brother
Cos we love you

Oh you can't go

You can't leave now brother
Don't leave now brother
Cos we love you
Yes you
If you go
Can't leave now
Don't leave now brother
Cos we love you

But if you go I hope you get there
If you get there I know you'll like it
