

# The Woeful Eucharisty

## Hour of Penance

Pieces of flesh to immolate  
Upon the altar  
They wait the time of the sacrifice  
The silence is broken by  
The noise of the prayers

Eucharisty in the name of the lie  
Until we will  
Rise up - against the decievers  
Rise up - against the decievers  
Slay them!  
Vengeance for the true believer  
Vengeance for the real reedemer  
Kill them!  
Celebrate the truth with  
This new sacrifice  
A godless concrete revelation shall  
Enlighten the feeble minds  
No compassion for  
The shameful fratricides  
Bow your heads before our army as sign of submission

Cross symbol of demise  
False blessing  
Hidden by the filthy sign of  
Cross icon of the hidding  
Pure falsehood wisely seeded in the prasie of lord  
Paradigm of the lie  
False leaders - Lift their the hands to celebrate the lord  
Shame of the mankind  
Rise up for every single word they ever preached  
And for every single verse they ever read

For every single verse they ever read  
And for every single sign  
They gotta die

Kill in the name of the truth  
Kill in the name of the truth  
Kill in the name of the truth  
Kill in the name of the truth

Words cage of huma sight  
The dead walking indoctrinated by the holy words  
Wire fence for your mind  
Blinded worship in  
The false conviction that is  
God the leader of your life  
Desperate asking for  
The fair salvation from a god  
That will no reply

Rise for every single word  
They ever preached and  
For every single verse  
They ever read and  
For every single sign they gotta die

The time of fall has come  
No mercy for the enemies  
We'll purify the race from those ones  
Kill in the name of truth  
Kill in the name of truth  
Slay the decievers!  
Make them eat their own sick flesh!  
Kill without fear!  
Get themselves drunk of  
Their own blood!  
Finally leader!  
Of this woeful eucharisty  
Give them the end deserve!
