

# Out My Way

## House of Heroes

When did everyone  
I leaned on get outdated?  
Where are all the  
Great mysteries and the legends?  
If they could make me  
A carbon copy, would you hate it?  
Or would you even know they offed me?  
Obliterated...

If you've got shots you wanna take  
Better hope it buries me hey-ey-ey  
If I go out then so it be  
You know I'm going out my way

When you add up all the risks not taken  
They're all misses  
Think I'd rather live with the  
Knock down drag outs and the stiches  
'Cause you'll never find out  
Till your body's been broken on the canvas

If you belong with the ghosts and the has-beens  
Or if you live on like a little piece of greatness

If you've got shots you wanna take  
Better hope it buries me hey-ey-ey  
If I go out then so it be  
You know I'm going out my way

If you've got shots you wanna take  
Better hope it buries me hey-ey-ey  
If I go out then so it be  
You know I'm going out my way

Out my way  
Out my way  
Out my way

It took a whole lot of blood and sweat  
To get what I got  
It took a whole lot of cold hard want  
To get what I got  
It took a whole lot of nights like these  
To get what I got  
Yeah it took cold hard want  
To get what I got

If you've got shots you wanna take  
Better hope it buries me hey-ey-ey  
If I go out then so it be  
You know I'm going out my way

If you've got shots you wanna take  
Better hope it buries me hey-ey-ey  
If I go out then so it be  
You know I'm going out my way

If you belong with the ghosts and the has-beens  
Or if you live on like a little piece of greatness
