## Stay

**House of Heroes** 

The last time you walked away You left this weight with me, It's in my heart it's on my back, I think it might bury me, I wanna cast you out, But that's just half of me, The other half believes there's more to us than tragedy, But I can't do it on my own

Stay, stay, stay, Or don't come back if you walk away, I can't go on like it's all the same, So stay...

Don't tell me you're not safe, It sounds like a dare to me, And if you doubt don't shut me out, That's not fair to me, I know i hurt you too, When I'm looking for clarity, But all I know is when I go, I want you there with me. 'Cause I can't do it on my own, And if I got you I think I could hold on, hold on...

Because I can't do it on my own.
